

INDUTECH

TECHNICAL TEXTILES FOR
INDUSTRIAL APPLICATIONS

Indutech refers to technical textiles designed for industrial processes and products. These textiles provide performance, protection, and durability in demanding environments.

FUNCTIONS OF INDUTECH PRODUCTS

Filtration

Separation

Conveyance

Protection

Insulation

Reinforcement

KEY INDUTECH PRODUCTS

Filtration
Textiles

Conveyor and
Transmission Belts

Coated and
Laminated Fabrics

Industrial Hoses
and Reinforcements

MATERIALS USED

- Synthetic Fibers: Polyester, Polypropylene, Polyamide, Aramids
- Inorganic Fibers: Glass Fibers, Basalt Fibers, Ceramic Fibers
- Natural Fibers: Cotton, Jute

APPLICATIONS
